The Only Peer2Peer Software I have is Bittorrent, the other  
stuff is likely to get you in trouble, because the network  
has bad files on it that contain \*\*\*N, you know that stuff.

That is one thing I hate about computers, that stuff.

And also that Subnetting has enslaved us for good.

With Computing I only use Windows Ten and Arch Linux,

Linux Unified Key Setup, BIOS Password, All Ports Closed

on Nmap Scan, Ultimate Hosts Blacklist, Mac Address Spoofed,

Google DNS, Ublock Orign, Privacy Badger, Decentraleys, Canvas Blocker, on Chromium, Firefox, and Brave, Degoogle My Android Phone, Alphanumeric Password, Netguard, F-Droid, Disable literally everything and Power Save Mode, Termux Nmap Scan shows all ports closed, Got a Root and User PW, BSD filesystems suck, They Get Corrupted, I still use Exfat and Fat32 for Externals and LUKS Ext4 for Internals, also Archive Everything to Permacc Atoday webaorg. Got it. On My Linux Tower, M93P, I disable IME, set the cores to one fourth on low power mode, not a gamer, never needed it, The Lenovo does everything I need, and then some, ffmpeg, kdenlive, yt-dlp, audacity, vlc, mpv, all those for media. Then I use Kate for my Text Editing, others will be genie, leafpad, gedit, Sublime, Kwrite, Kate, Then For File Managers, ROX, PcmmanFM, Dolphin, Thunar, those are the main ones I use, Then For All Web Browsing Chromium, Falkon, Brave, and Firefox, I just ditched Brave a Bit, Chromium and Firefox are the only two for processing certain transactions. Then on Windows it Manages The Taxes and Billings and stuff. I use Libreoffice, Apache Openoffice, and Microsoft Office. Then I use WinHTTTrack, wget, curl, and Wine Emulator, then in Virtualbox, I run Puppy Linux in that one and it works. Other Distros were too bloated on my only Eight gigs of RAM. Then For Live USBS I use Arco Linux L as it has Drivers. ; Then that will be it for the \*\*\*\*\* ramble Now for Links :

Random Videos is a Data Ark of Twenty Assorted Videos for  
Archival Purposes Only to reflect on this Current Talmudic  
NWO system we live under, where you pay interest on loans  
because you are not a semite and you are limited to only  
two passports where private property no longer exists and  
after 911 you can kiss your rights goodbye, an assortment  
of the major 20 Videos I can find exposing the Real NWO  
that is Talmudic and you cannot even mention it elsewhere. ;  
One Thing The Zionists, Marxists, Talmudic Jew Globalists  
Do Not Want us Discovering is The Unlimited Primary Water  
in the Earths Mantle or that Distilled Water Cures Diseases,  
or That Fasting Does The Same, for any of this would be  
a threat to them and their establishment, other countries  
also ozonate the drinking water unlike what we do here. ;
